

GDI's food plant sanitation services can help keep your reputation spotless by making your facility inspection-ready EVERY DAY!

GDI Integrated Facility Services

GDI's cleaning and sanitization specialists provide expert services for the food manufacturing industry including SSOP development/analysis/training, master sanitation schedules, and proper cleaning of equipment, infrastructure, tanks and silos.

GDI's Mission Critical cleaning and sanitation services in both wet & dry environments offer:

- Cleaning and sanitation of plant, equipment and offices
- Overhead cleaning of pipes, ceilings, duct work, conduit, support structure and HVAC systems
- Allergen cleaning
- Silo cleaning
- Tuff Wrap services
- Remediation services (emergency support, mold remediation and construction clean-up)
- Quality Assurance programs
- Customized, site-specific Health and Safety programs
- Ongoing employee training
- SSOPs—Sanitation Standard Operation Procedures (analysis, development and training)
- Master Sanitation Schedule (MSS) proprietary program that tracks all service tasks and is available online for clients
- Assurance of timely production start-up
- Human Resource management
- Stringent record keeping
- Proprietary Training Matrix – a web accessible system for both managers and clients

GDI Integrated Facility Services is your one-call destination for complete facility cleaning and maintenance. When you partner with GDI, we work behind the scenes to solve any problems that might exist, perfect your facility's reputation and ensure ongoing customer satisfaction.

Our client-first philosophy means we are committed to your satisfaction, we customize our services to fit your needs, and you will enjoy clean, healthy, and welcoming work and leisure environments every day.
